1. Claims 10-14 and 20-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A) Claims 10 and 20 (and consequently their dependent claims) are confusing because of the language “nearly identical”, as it cannot be determined what differences are permitted under this relative language. These claims are further confusing because of the language “described in (1): (1) any one CL-F point...”, for which the meaning cannot be understood. Clarification/correction is required.

B) Claims 14 and 24 are further confusing because of the language “thousands of bi-allelic covering markers”, as it cannot be determined what range of markers is contemplated. Clarification is required.

C) Claim 24 is further confusing because “the process” lacks proper antecedent basis; claim 24 is drawn to a product (set of oligonucleotides) whereas the further limitation is drawn to a process. Thus, it cannot be determined how the set of oligonucleotides is further limited.

2. Claims 6-9 and 15-19 are allowable. Claims 10-14 and 20-24 are free of the prior art, but are rejected for other reasons.

Art Unit: 1637

3. Applicant's express abandonment of parent application 09/623,068 to avoid a statutory double-patenting rejection, on page 24 of the response filed 01/28/05, is noted.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

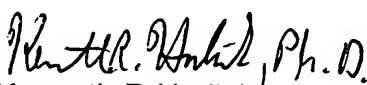

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
